Personal

I am always filling my journals. I also write short stories, slam and prose poetry, and one day, I will write a book. I am always on the move – a global adventurer, a scuba diver, a skateboarder. I enjoy unstrained ginger beer and obsess about photographing the perfect sky. I play piano, the drums, and I'm learning guitar. I speak Korean and Spanish, and I appreciate Latin American literature in the original. I push to the edge and nothing will prevent me from standing back up and going forward – stronger, and more determined.

Publications
